and [E-Consult](#).

For more information,  
scan to view the project web page.

**Central CT Loop**  
ALT-FCT Study

**Help shape the future of the  
Central CT Loop!**

**Join us for the first public workshop  
for the Central CT Loop Study,**

an initiative to create a seamless multi-use trail loop through the Town of Middletown and the Town of Portland that aims to connect the Airline Trail and the Farmington Canal Heritage Trail. At this workshop, consultants will provide a slide presentation that summarizes the study's scope of work, highlights the key transportation and environmental issues, and outlines the draft trail route alternatives. Workshop attendees will have ample opportunities for feedback in a smaller group setting, both verbally and marking up maps of the study area.
